

*Designing specifically for elevator control, the EX16 floor extension boards provide customers with the most secured, scalable, versatile and affordable access control solutions available today.*

*Floor access can be restricted based on various user credentials, including fingerprint, proximity card and/or password. Pre-defined time schedules can also be used to control floor access. During normal visits/business hours, unrestricted floor access can also be permitted (aka Passage mode).*

*The EX16 Elevator Floor Extension Board restricts access up to an additional sixteen floors. Each EC10 can support up to three EX16 boards. When combining together, a total fifty eight (58) floors can be controlled with a single EC10 bundle.*

# EX16

## ***SPECIFICATION***

<b>Floor Button Control Relay</b>	<b>16</b>
Communication to EC10	RS485
RS485 address	Set by DIP switch
Power Supply	12V DC, 1.5A
Dimensions	6.3in.×4.17in.(160mm×106mm)
<b>Net Weight</b>	<b>0.2kg</b>
