FR1300

FR1300 is an indoor slave reader with RS485 interface that works with master controllers from ZKTeco, for example, inBIO series biometric control panels. As a value-added slave reader, FR1300 provides the most secure and cost effective access control solution for small and medium enterprises.

- Energy-saving, auto-sleep ZK infrared fingerprint sensor
- Built-in RFID card reader
- Supports password when working with inBIO series control panels
- LED and Buzzer prompt
- With doorbell function
- 86cmx86cm socket installation, easy operation

SPECIFICATION

Sensor	ZK Infrared Optical Sensor
Communication	RS485
Built-in Card Reader	125 kHz EM card reader, Optional Mifare card reader
Optional Function	Mifare Card Module
Power Supply	DC 12V
Operating Temperature	0°C ~ 45°C
Operating Humidity	20% ~ 80%
Dimension	88mm×88mm×33.6mm
